---	---	--	-----------

2.0 Biodiversity Heritage sites are the areas of biological importance that are ecologically fragile and which generally have one or more of the components such as species richness, high endemism, and presence of rare, endemic, threatened species.

3.0 These sites are declared as BHS with the following objectives.

- To increase the numbers of Tourists in the above-mentioned areas thereby promoting Tourism inter alia livelihood generation.
- To strengthen the conservation effort in this area minimizing the present threats to biodiversity of the area.
- To protect Red listed/endangered and threatened flora and fauna of the state.
- To preserve the ecosystem services of the area.
- To generate livelihood for the local community and encourage them to use the bio-resources in a sustainable manner.
- To abide by the section 37(1) of the Biological Diversity Act, 2002.

4.0 As per sub-section (1) of section 37 of the Biological Diversity Act, 2002 and section 22(1) of Tripura Biological Diversity Rules, 2006, approval of the local bodies and other key stakeholders of the above-mentioned areas have already been obtained.

5.0 This will be effective from the date of publication in official Gazette.

By order of the Governor of Tripura
